Nationality Bosnia and Herzegovina
Date of birth 18.10.1965.

Desired employment / Occupational field **University professor, Vice Dean for Scientific and Research Work;
Full professor, Doctor of Technical Sciences in the field of Civil Engineering
Field of competencies: hydraulic engineering and geotechnical
Head of Doctoral Study of Civil Engineering - scientific branch Hydraulic Engineering**

Work experience

Dates **01.10.2008. and today**
Occupation or position held University Professor / Doctor of Technical Sciences / Full Professor
Vice Dean for Scientific and Research Work on Mining-Geology-Civil Engineering Faculty ;
Head of Doctoral Study of Civil Engineering, University of Tuzla, Bosnia and Herzegovina
Main activities and responsibilities Lectures at graduate and postgraduate studies and doctoral studies
Name and address of employer University of Tuzla, Bosnia and Hercegovina
Type of business or sector Higher Education
I was a designer in the 250 study in the area of collection and treatment of waste water and landslide rehabilitation.
Dates **01.08.2004. do 30.09.2008.**
Occupation or position held Manager of Service for designing and Technical Supervision / Doctor of Technical Sciences
Main activities and responsibilities Head of the Project bureau, making of project documentation, conducting technical supervision over facilities under construction, revision of project documentation, design of water and sewage systems.
Name and address of employer "TEHNOGRAD-company" Tuzla, Bosnia and Hercegovina
Type of business or sector Designing and construction of buildings

Dates	05.03.1999. do 31.07.2004.
Occupation or position held	Executive Director of the Institute
Main activities and responsibilities	Management of the project office and designing
Name and address of employer	Institute for Protection, Ecology and Education, Tuzla
Type of business or sector	Education, design of construction facilities, preparation of studies
Dates	18.06.1997. do 04.03.1999.
Occupation or position held	Responsible designer
Main activities and responsibilities	Designing of prefabricated reinforced concrete constructions
Name and address of employer	GK „BOSNA“ Gradačac, Bosnia and Hercegovina
Type of business or sector	Construction operations, designing
Dates	15.04.1996. do 17.06.1997.
Occupation or position held	Technical manager of the construction of plants for water preparation and pumping stations in Zivinice
Main activities and responsibilities	The management of construction site and the construction buildings
Name and address of employer	"TEHNOGRAD VISOKOGRADNJA" Tuzla, Bosnia and Hercegovina
Type of business or sector	Construction of buildings

Resume

Professor Suljic submitted his doctoral dissertation entitled "Geotechnical conditions for planning and designing modern waste landfills" at the Faculty of Mining, Geology and Civil Engineering of the University of Tuzla. During 2006, he stayed at the Technical University in Stuttgart and at the Institute of Umweltwirtschaft Stuttgart, for the necessary research related to the preparation of his doctoral dissertation (base closure, leachate, landfill slope stability, final surface closure of the landfill).

From the election to the title of assistant professor to the election to the title of associate professor, he participated in 45 commissions for the defense of graduate theses, in 21 commissions as a candidate's mentor.

From the election to the title of associate professor until today, he participated in 48 commissions for the defense of graduate theses, in 21 commissions as a candidate's mentor.

Since his election to the title of associate professor, he has participated in 27 commissions for the defense of master's theses, and in 20 commissions as a mentor of candidates for the defense of master's theses.

To date, he has mentored six candidates for the preparation and defense of doctoral dissertations, three of whom defended their doctoral theses. He was a member of the commission and president of the commission for the defense of doctoral theses for seven candidates at the University of Tuzla and the University of Bihać.

He was an invited lecturer at the University of Bihać, University of Mostar, University of Zenica and Kadir Has University in Istanbul, Turkey. He was an invited lecturer at a scientific conference in Dubrovnik and Zagreb (Croatia) organized by the Universities of Japan and Croatia.

He was a member of the selection committee for teaching positions at the University of Tuzla, University of Mostar, University of Sarajevo, University of Bihać and Burch University (Turkey). Professor Suljić is the author of five books, of which three are university textbooks. One book was printed in Serbia (publisher AGM KNJIGA) Belgrade for the needs of civil engineering faculties.

He is a member of the organizing committee of three scientific meetings in the field of construction (GTZ) that were held in 2009, 2012 and 2015 in Tuzla.

He is a member of the scientific committee of the international scientific conference "Contemporary achievements in construction" at the Faculty of Civil Engineering in Subotica, University of Novi Sad, Serbia, from 2014 until now.

He is a member of the scientific committee of the international conference "RIM". He is a permanent reviewer and member of international editorial boards of scientific and professional journals that are in indexed databases, namely: The International Journal of Mechanical Engineering and Automation (USA), The Open Journal of Water Pollution and Treatment (USA), The Journal Civil Engineering and Architecture (USA), The of Journal Civil Engineering Research (Scientific & Academic Publishing, USA), The of Journal Geosciences (Scientific & Academic Publishing, USA), American Journal of Fluid Dynamics (Scientific & Academic Publishing, USA), International Journal of Engineering and Management Research (Vandana Publications, India), scientific and professional journal "Ecologica" Belgrade, Republic of Serbia. He has so far reviewed 50 papers in the aforementioned international journals, mainly in the journals: The of Journal Civil Engineering Research (Scientific & Academic Publishing, USA), The of Journal Geosciences (Scientific & Academic Publishing, USA), American Journal of Fluid Dynamics (Scientific & Academic Publishing, USA) and The Open Journal of Water Pollution and Treatment (USA). Reviewer of a paper in the Collection of Papers published by the Academy of Sciences and Arts of Bosnia and Herzegovina, Department of Natural and Mathematical Sciences, in June 2015.

From March 2017, Professor Suljic was elected Vice-Dean for Scientific Research at the Faculty of Mining, Geology and Civil Engineering of the University of Tuzla for a period of 4 years, and from March 2021 he was re-elected as Vice-Dean for Scientific-Research until March 2025. He is the head of the doctoral study in civil engineering - scientific branch of Hydrotechnics.

He is a permanent external expert of the Environmental Protection Fund of the Federation of Bosnia and Herzegovina. It is included in the Biographical Lexicon "WHO'S WHO IN BIH", which contains biographies of personalities from the world of science, culture, art, sports, politics and religion who have contributed to the development and affirmation of Bosnia and Herzegovina in recent years.

From May 2018, by decision of the Presidency, he was elected as an active and permanent member of the Association of Independent Intellectuals of Bosnia and Herzegovina - KRUG 99.

From October 2019 to August 2020, he served as the National Consultant for Bosnia and Herzegovina for the development of the Strategic Action Program for the Drina River Basin, between the states of Montenegro, Serbia and Bosnia and Herzegovina, which will cover hydropower potential and flood protection.

He is a member of the Technical Committee for Standardization of Bosnia and Herzegovina (Fluids and fluid systems).

Since December 2019, he has been elected as a corresponding member of the Bosnian and American Academy of Sciences and Arts.

In May 2022, he was elected as an associate (corresponding) member of the International Academy of Sciences and Arts of Bosnia and Herzegovina (IANUBIH).

(from 2013 to 2015)

1. Revision of the geotechnical project of mission G21 – Blue water Travnik, Faculty of Mining, Geology and Civil Engineering, University of Tuzla, June 2013, WINNER PROJECT d.o.o. Sarajevo.
2. Revision of the geotechnical study and project (mission G21) for the facility of storage facilities near Lukavac, owned by the company "Kemis-BH" d.o.o. Lukavac, July 2014, client "Mining Institute" d.d. Tuzla.

Reviews of books and university textbooks

1. Reviewer of the textbook "Materials for soil and rock grouting" authored by Prof. dr. Izet Žigić and Prof. dr. Dinke Pašić-Škripić (Decision No. 10/2-747-6/11 of February 2, 2011 – Council of the Group of Technical Faculties of the University of Tuzla).
2. Reviewer of the university textbook "Fundamentals of Hydrogeology and Karst Hydrology" by Assoc. Ph.D. Amira Galić and Assoc. Ph.D. Gordan Prskalo, at the Faculty of Civil Engineering at the University of Mostar.
3. Reviewer of the university textbook "Soil Mechanics in Engineering Practice" authored by Assoc. Almir Šabović.
4. Reviewer of the book "Geomechanical testing of terrain for the construction of buildings" authored by Prof. Dr. Milan Stević.
5. Reviewer of the university textbook "Solved exam questions from the subject Basics of Hydrotechnics" by Assoc. Ph.D. Hovany Lajoša, at the Faculty of Civil Engineering in Subotica, University of Novi Sad, Serbia.

Research projects (2008 – 2013)

1. Elaborate on geological and geomechanical testing of the terrain for the revitalization of the former Konak at k.č. number 5231/2 and item no. 5134, K.O. Bihać in Bihać.
Investor: Unsko Sanski Canton, JP Institute for the Protection of Cultural Heritage Bihać
2. Elaborate on geomechanical soil testing for the needs of reconstruction and upgrading of the existing building of the Health Center in Donji Vakuf at the complex no. number 1775, K.O. Donji Vakuf I.
3. Elaborate on geomechanical tests of the foundation soil for the construction of the city market complex in Tuzla (Elaborate done in March 2008 - supplemented with budgets for buildings from the Conceptual Solution).
4. Research and testing of the runoff coefficient and the infiltration coefficient on the body of the sanitary landfill (2016-2021).

Research projects (2013 – 2021)

1. Geotechnical project for the construction of a chemistry terminal in Lukavac, mission G21, Faculty of Mining, Geology and Civil Engineering of the University of Tuzla, January 2014.
2. The main construction part-geotechnical design of the facilities that make up the dam, facilities for water evacuation during construction, main plant engineer, deepening of the bed downstream from the engine house, HPP Vranduk 20 MW, Faculty of Mining, Geology and Civil Engineering, University of Tuzla, June 2017.

3. Participation in the commission for giving and preparing an expert opinion on tunnels as mining facilities, tunnels as construction facilities or a combination of mining and construction works. An expert opinion was requested in order to harmonize the legal regulations by the Ministry of Energy, Mining and Industry of the Federation of BiH and the same was done in June 2018.
4. Elaborate on geomechanical tests of the foundation soil for the construction of the "Zeleni Jadar" mini-hydroelectric power plant on the Zeleni Jadar river at c. 297/24 K.O. Orahovica and k.č. 14/3 K.O. Bučje in the municipality of Srebrenica, EARTH Tuzla
5. Geotechnical project on geomechanical testing of the terrain for the construction of the funicular at the location of Stari Grad Blagaj, Stjepan Grad fortress near Mostar (mission G21), EARTH Tuzla, "ARHIPLUS" d.o.o. Mostar, August 2018.
6. The main project with the preparation of studies on geomechanical testing of the terrain for the needs of landslide rehabilitation in Sivrina Selo in the municipality of Vitez, EARTH Tuzla, investor of the municipality of Vitez, September 2018.
7. Elaborate on geological and geomechanical testing of the soil for the construction of the transformer station STS-B 10(20)/0.4 kV "Dedići 2", with the connecting 10(20) kV medium voltage line in order to ensure an increase in the connecting power for the business facility Mujkić Nermina in Dedići at k.č. 1130/1 K.O. Seona and 963 and 956 K.O. Bjelave in the municipality of Srebrenik, EARTH Tuzla.
8. Research and testing of the runoff coefficient and the infiltration coefficient on the body of the sanitary landfill (2016-2021).

RESEARCH STUDIES IN THE FIELD OF WATER MANAGEMENT

(FROM 2008 TO 2013)

1. Study for the construction of S.P. Polymer manufacturing facility,
2. Study for an Individual residential building
3. Study for previous water approvals for the business facility farm for fattening broilers
6. Study for a commercial building (warehouse and sales area for spare parts for cars)
7. Study for previous water approvals for a residential - commercial building
8. Study for the previous water approval for the Production plant for the production of concrete - concrete plant
9. Study for the previous water approval for the Dairy Cow Farm
10. Study for preliminary water approval for "Ethno Village" in Gradačac.
11. Study for preliminary water approval for the construction of a sports hall in Čelić, Bosnia and Herzegovina.
12. Study for preliminary water approval for a business facility for the sale of cars with a car service.
13. Study for the previous water approval of the Commercial building-hall for the production of aluminum alloy with a canopy, Živinice.
14. Study for the previous water approval of the Business building-hall for the legalization of the business building Locksmith workshop Brijesnica Mala, municipality of Dobož Istok
15. Study for previous water consent for broiler fattening farms - change of use Piskavica, municipality of Gračanica
