XIV. RESEARCH WORK

A. Description of research work

- ▲ The interest of Mr Rizos in research is continuous all the years of the period of his specialization in Psychiatry. His cognitive domain is Genetic Psychiatry and his research activity is related both to genetic studies of schizophrenia pathogenesis in the Greek population and in pharmacogenetic studies of antipsychotic drugs. Also on Liaison Psychiatry and especially in studies of comorbidity and pathophysiological mechanisms of cardiovascular disease and affective disorders.
- ▲ From 1996 and for a year, he was an unpaid research associate in the Laboratory of Molecular Oncology and Biotechnology Institute of Biological Research and Biotechnology, at the National Hellenic Research Foundation, under the direction of Associate Professor DA Spantidou. He was trained in techniques of molecular medicine and genetics, gaining significant experience in basic research, leading to important research papers published in international journals on issues relating to molecular oncology and genetic psychiatry.
- ▲ From 1997 to 2001 his research activity in basic research continued in the framework of his Ph.D. thesis at the Laboratory of Genetics, School of Medicine, University of Crete, under the direction of Associate Professor DA Spantidou. Acquiring considerable knowledge and experience in genetics Oncology resulted delving in Genetic studies of mental disorders. (Publications in SCI No. 1, 2, 3 and 4).
- ▲ From 2001 to 2005, alongside his status as Consultant B’ in the Psychiatry Clinic of the Psychiatric Hospital of Attica “Dromokaiteio”, he continued his research collaboration with the same Laboratory regarding genetics, resulting in publications and papers in Greek and international journals and conferences.
- ▲ From 2006 to the present, with his election as Lecturer in Psychiatry of the 2nd Department of Psychiatry, National Kapodistrian University of Athens, at

University Hospital "Attikon", he is head of the Department of the Genetic Psychiatry Clinic. Simultaneously he issued:

- 1.** Cooperation with the Psychiatric Clinic of "Agios Panteleimon" General Hospital (Director J. Rondos), to conduct research protocols involving the pathogenesis of schizophrenia in cases with early psychotic symptoms.
(Publications in SCI No. 6, 7, 8, 9, 13 and 14 and outside SCI No 2).
- 2.** Cooperation with emergency departments the Psychiatric Hospital of Attica "Dromokaiteio" (Tarsi Department) with the intent to drawing psychopharmacology and pharmacogenetic research protocols, the results of which if confirmed in a larger number of patients, might be important information for the design of safer and more effective pharmaceutical antipsychotic agents.
(Publications in SCI No. 7 and 8).
- 3.** Cooperation with emergency departments of the Psychiatric Hospital of Athens, with a view to producing genetic research studies for the pathogenesis of schizophrenia.
- 4.** Collaboration with the Laboratory Section of the Department of Biological Research of the National Research Foundation (Head: Zoumpourlis B.), with the aim of conducting genetic studies of the pathogenesis of psychoses.
(Publications in SCI No. 13 and outside SCI No 2).
- 5.** Collaboration with the Oncology - Hematology Department of Biomedical Institute for Biological Research of the Academy of Athens (Head: E. Katsantoni), with view to developing pharmacogenetic studies of antipsychotic drugs.
(Publications in SCI No. 8, 10, 14 and 16).
- 6.** Initiation of the European Research Protocol with a view to conducting original European pharmacological research sponsored by ASTRA-ZENECA, codenamed QUET-TARDYSK-DAT-2010 and entitled: "the use of quetiapine in the treatment of the symptoms of tardive dyskinesia in patients with psychotic disorder - A pilot study."
- 7.** Collaboration with the Nuclear Medicine Department of Radiology (2nd Department), of the University General Hospital "Attikon" (Director: S. Xatziiwannou, Assistant Professor of Nuclear Medicine), with a view to drawing psychopharmacology studies of antipsychotic drugs with the PET method.
(Publications in SCI No. 10 and 16).
- 8.** Collaboration with the Laboratory of Hematology (Director: A. Travlou), to study the coagulopathy of antipsychotic medicinal agents, in patients with Schizophrenia.
- 9.** Cooperation with Neuroimaging Department of the 2nd Laboratory of Radiology, of the University General Hospital "Attikon" (Head: M. Papathanasiou, Assistant Professor of Neuroradiology), to conduct studies of the changes of brain structures in patients with schizophrenia.

(Publications in SCI No. 10 except SCI No 3).

10. Collaboration with 2nd Microbiology Laboratory of the University General Hospital "Attikon" (Director: L. Zerva, Assistant Professor of Microbiology) to conduct psychopharmacological and pharmacogenetic studies of antipsychotic drugs.
(Publications in SCI No. 8 and 10).
11. From 2009 to the present is a member of the Research Group on Early Intervention in Psychosis at the Psychiatric Department of Eginition Hospital (Head: Assoc. Professor N. Stefanis).
12. Cooperation with the Research Institute "Amalia Fleming" under research protocol for the study of changes in the immune system in patients with Schizophrenia. Scientific responsible: N. Balogianni.

B. Participation in Research Protocols - Programs

1. Greek experience with tacrine in patients with Alzheimer.
Multicenter Nationwide survey.
Scientific responsible: M. Tsolaki Assoc. Professor of Neurology, Medical School, University of Thessaloniki.
Period: January 1998-June 1998.
Funding: PARKE - DAVIS.
- The results of the study were announced at the 12th Congress of Southeast European Neurology - Psychiatry.
2. Evaluation of effectiveness and safety of long-acting risperidone microspheres in patients with schizophrenia or other psychotic disorders when switching from the established sustained-release drugs or oral neuroleptics to risperidone long-acting microspheres.
Pan-European multicentre study (Research Code: RIS-INT-87).
Scientific responsible for Greece: P. Tsempeikos, Director of Psychiatry "Sismanoglio" Hospital.
Time period: 2003-2005.
Funding: JANSSEN - CILAG
3. Comparative study of olanzapine injectable form with haloperidol injectable form.
Multicentric Nationwide survey.
Scientific responsible: Ch Touloumis, Consultant Psychiatrist, Psychiatric Hospital of Athens.
Time period: 2004-2005.

- 4.** The use of quetiapine in the treatment of symptoms of tardive dyskinesia in patients suffering from schizophrenic disorders - A pilot study.
Pan-European study.
Scientific coordinator: E. Lykouras.
Main research: E. Rizos (concept and design).
Period: January 2010 - ongoing.
Funding: ELKE (Special Account for Research Fund)

As a result of his research efforts were:

- To be published in:
 - Foreign peer reviewed journals : 38 papers
 - Greek peer reviewed journals : 12 papers
 - Abstracts in foreign journals (Supplement) : 17 papers
 - Abstracts in Greek journals (Supplement) : 14 papers

- To be announced in:
 - International conferences : 22 papers
 - Greek conferences : 26 papers

- To be written in Greek books : 8 chapters
